

Summary of Safety and Effectiveness

JUN - 1 2007

Submitter Name and Address: Micrus Endovascular Corp.
821 Fox Lane
San Jose, CA 95131

Contact Name: Patrick Lee, Regulatory Affairs Specialist
Phone: 408-433-1428
Fax: 408-433-1585
Email: plee@micruscorp.com

Preparation Date: May 1, 2007

Device Name and Classification: Micrus Microcoil Delivery System
Common Name: Micrus Microcoil System
Classification Name: Device, Artificial Embolization
Product Code HCG
Regulatory Class II

Predicate Devices: Micrus Microcoil Delivery System, 510(k) K002056
Micrus Microcoil Delivery System, 510(k) K031578

Device Description: The Micrus Microcoil Delivery System consists of
(1) An embolic coil ("Microcoil") attached to a Device Positioning Unit (DPU) (single use, sterile).
(2) An Connecting Cable ("CCB")
(3) A Detachment Control Box ("DCB")

Device Intended Use The Micrus MicroCoil Delivery System is intended for endovascular embolization of intracranial aneurysms.

Comparison to Predicate Devices:

The Micrus Microcoil Delivery Systems with the new Detachment Control Box ("DCB") have shown substantial equivalence to the FDA-cleared and marketed Micrus Microcoil Delivery System in terms of intended use, design, material and method of construction, and dimensions. The modification has not altered the fundamental technology of the sponsor's predicate device.

Conclusion:

Based upon the design, materials, function, intended use comparison with currently marketed device and the non-clinical testing performed by Micrus Endovascular Corporation, it is concluded that the new **DCB** of the Micrus Microcoil Delivery System is substantially equivalent to the predicate devices in safety and effectiveness.

Re: K071246

Trade/Device Name: Micrus Microcoil Delivery System
Regulation Number: 21 CFR 882.5950
Regulation Name: Neurovascular embolization
Regulatory Class: II
Product Code: HCG
Dated: May 1, 2007
Received: May 3, 2007

Dear Mr. Lee:

We have reviewed your Section 510(k) premarket notification of intent to market the device referenced above and have determined the device is substantially equivalent (for the indications for use stated in the enclosure) to legally marketed predicate devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act) that do not require approval of a premarket approval application (PMA). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (PMA), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 898. In addition, FDA may publish further announcements concerning your device in the Federal Register.

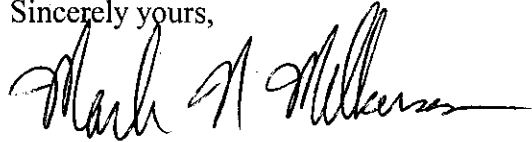

Please be advised that FDA's issuance of a substantial equivalence determination does not mean that FDA has made a determination that your device complies with other requirements of the Act or any Federal statutes and regulations administered by other Federal agencies. You must comply with all the Act's requirements, including, but not limited to: registration and listing (21 CFR Part 807); labeling (21 CFR Part 801); good manufacturing practice requirements as set forth in the quality systems (QS) regulation (21 CFR Part 820); and if applicable, the electronic product radiation control provisions (Sections 531-542 of the Act); 21 CFR 1000-1050.

Page 2 – Mr. Patrick Lee

This letter will allow you to begin marketing your device as described in your Section 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801), please contact the Office of Compliance at (240) 276-0115. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR Part 807.97). You may obtain other general information on your responsibilities under the Act from the Division of Small Manufacturers, International and Consumer Assistance at its toll-free number (800) 638-2041 or (240) 276-3150 or the Internet address <http://www.fda.gov/cdrh/industry/support/index.html>.

Sincerely yours,
